MOBILE PRINTERS FOR FAST, RELIABLE PRINTING ON THE MOVE...

Our RJ series mobile printers are fast, compact and very rugged, perfect for busy mobile workers out in the field. They allow you to print up to 4" receipts, quotes, invoices and labels for customer's on the spot, improving efficiency, productivity and customer service. As the fastest printer in its class, at 5" per second, they are the perfect tool for emergency services, public safety workers, field sales, delivery drivers, engineers and traffic wardens alike.

With Serial, Bluetooth, Wireless and USB connectivity options, the RJ series use thermal printing technology so you don't have to worry about ink or toner. And with IP54 certification, the toughest tests against dust and water, you are assured of its continued reliability whatever the conditions. BPL (ZPL emulation) also allows existing applications for label/receipt printers to work with the RJ device without extra development costs.

FIELD SERVICE

Engineers out on the road can use RJ to print service reports for customers they are visiting, increasing customer confidence and minimising future queries.

LOGISTICS/DELIVERIES

Busy delivery drivers can print out updated delivery notes and order sheets with RJ, helping to keep them on the move and in the right place at the right time.

FIELD SALES

RJ can print out quotations, contracts, financial plans and invoices, increasing the opportunity for your sales people to close the deal while a customer's interest is still high.

PUBLIC SAFETY/EMERGENCY SERVICES

RJ can increase the accuracy of recording important information out in the field, avoiding unnecessary, time-consuming paperwork back in the office.

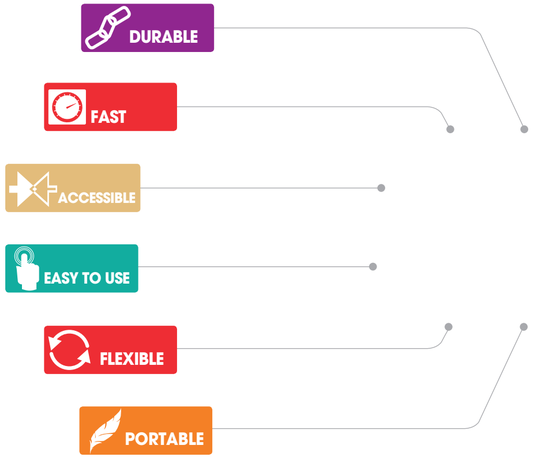
FAST, COMPACT AND VERY RUGGED

THE TOUGH PRINTING SOLUTION TO SUPPORT MOBILE WORKERS IN THE FIELD

RJ SERIES MOBILE PRINTERS

RUGGED MOBILE PRINTING, WHATEVER THE CONDITIONS

Come rain or shine, our RJ series are designed and manufactured to the high standards you'd expect from Brother and with IP54 certification and drop testing to 6', you have complete peace of mind that they won't let you down, even in the harshest outdoor conditions.



THE TOUGH PRINTING SOLUTION

TO SUPPORT MOBILE WORKERS

DURABLE
IP54 rating and drop test - Designed to withstand even the harshest conditions

FAST
5" per second print speed

ACCESSIBLE
USB, Serial, Bluetooth and Wirleless interface options

EASY TO USE
Direct thermal printing with no ink or toner to change

FLEXIBLE
Power options include rechargeable batteries, AC adapter or vehicle power kits

PORTABLE
Belt clip and shoulder strap options for easy portability

SOFTWARE SUPPORT AND INTEGRATION

Brother can provide the necessary tools required for software developers to integrate the print function into their mobile application. Printer drivers are available for Windows OS and Software development kits can be provided to support Windows Mobile and Android applications.

For further information go to **http://www.brother.com/product/dev**

ON THE GO PRINTING

Thermal printing is ideal for on the go use because it is less susceptible to fluctuating seasonal temperatures and humidity extremes than other mobile technologies.

FURTHER FEATURES INCLUDE:

- BPL - ZPL emulation for easy integration with existing systems.
- Fully featured design software to upload templates to the device.
- Supports a wide range of industry standard barcode symbols – both linear and 2D.
- Industry standard 203 dpi print resolution.
